SUMMARY

Full Stack Developer with 2 years of experience building scalable web applications using React.js, Next.js, Node.js, and MongoDB. Proven track record of improving application performance and delivering production-ready features in Agile/Scrum environments. Background in graphic design adds a strong UX perspective to technical work. Actively seeking full-time full-stack or frontend developer roles in Toronto or remote.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, TypeScript, Tailwind CSS, Bootstrap, jQuery, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs, ASP.NET, Spring MVC
Databases: MongoDB, MySQL, PostgreSQL, Google Firebase, PL/SQL
Languages: JavaScript, Java, Python, C#, PHP
DevOps/Tools: Git, Microsoft Azure, Netlify, Postman, Apache Tomcat, WordPress, Canva
AI/Cloud: OpenAI API, Google Gemini, Vertex AI, n8n, Hugging Face, Claude API, AWS (learning)
Soft Skills: Cross-functional Collaboration, Agile/Scrum Methodology, Technical Documentation, Problem Solving, Graphic Designing, Adaptive Learning

WORK EXPERIENCE

Full Stack Developer — Co-op | Credwise Financial Inc. · Edmonton, AB *May 2025 – Dec 2025*

- Built dynamic, responsive UIs using React.js, Next.js, Redux, and Tailwind CSS for the RewardsX Live Module; developed and integrated RESTful APIs with Node.js to fetch and display bank and card information in an Agile/Scrum environment.
- Managed structured and unstructured data using MongoDB and PL/SQL; deployed solutions on cloud platforms with CI/CD pipelines and presented sprint progress weekly with detailed technical documentation.
- Optimized production application performance — reduced bug reports by 40%, improved performance by 30%, increased user retention by 20%, and boosted UX ratings by 15%.

Web Developer | Shivaay Software Solutions · Ahmedabad, India *May 2022 – Apr 2023*

- Designed and maintained responsive web applications using HTML, CSS, JavaScript, React, Node.js, and jQuery, ensuring cross-browser compatibility and device responsiveness.
- Improved page load speed by 30%, reduced API errors by 20%, and increased transaction success rates by 15% through targeted code optimization and performance tuning.
- Conducted functional and UI testing to validate frontend-backend integration and ensure accurate API responses and data flow.

PROJECTS

AI Document Q&A Chatbot · Node.js · React · Hugging Face API GitHub

- Built a full-stack AI chatbot allowing users to upload documents and ask natural-language questions using Hugging Face APIs with context-based RAG-style prompting.
- Developed REST APIs with Node.js and an interactive React UI; delivered a working prototype within 48 hours, processing documents up to 50+ pages with sub-3s response times.

IKEA-Style E-Commerce Platform · MERN Stack · JWT · REST APIs GitHub

- Built a full-stack e-commerce web app with secure JWT authentication, product catalogue with category filtering, cart/checkout with payment validation, and real-time order tracking.
- Implemented admin portal with product CRUD, customer order tracking, and shipping status updates; secured with password hashing and robust client/server-side validation.

Sunrise Airways — Airline Reservation System · Java · MySQL · Swing GitHub

- Developed a role-based airline reservation system with secure user registration, ticket booking, flight scheduling, and booking history for both customers and admins.

Roosewald Shipping — Client Management App · Java · JSP · Servlets · MySQL GitHub

- Built a full CRUD shipping management web app using MVC architecture (Java, JSP, Servlets, JDBC) deployed on Apache Tomcat, with a responsive Bootstrap 5 UI.

EDUCATION

Graduate Certificate — Full Stack Software Development *Jan 2024 – Aug 2025*
Lambton College · Toronto, ON
(GPA: 2.92/4.0)

Bachelor of Science — Information Technology *Jun 2019 – Mar 2022*
Gujarat Law Society (GLS) University · Ahmedabad, India
(CGPA: 7.5/10)

VOLUNTEERING

Design Lead | Google Developer Group (GDG), Lambton College · Toronto, ON *Sep 2024 – Dec 2024*

- Promoted as a Lead Designer and directed design initiatives by leading a creative team of designers, maintained consistent branding across all GDG platforms, and ran workshops on tech and networking for club members and newcomers.

Graphic Designer / Editor | Google Developer Group (GDG), Lambton College · Toronto, ON *May 2024 – Aug 2024*

- Designed event banners, infographics, and presentation decks; created interactive quizzes and visual content to support workshops and increase event engagement.
