WORK EXPERIENCE

Full Stack Developer — Co-op | Credwise Financial Inc. · Edmonton, AB

May 2025 – Dec 2025

- Built dynamic, responsive UIs using React.js, Next.js, TypeScript, and Tailwind CSS for the RewardsX Live Module; developed and integrated RESTful APIs with Node.js to fetch and display bank and card information in an Agile/Scrum environment; managed structured and unstructured data using MongoDB and PL/SQL.
- Deployed solutions on GitLab and maintained CI/CD pipelines for smooth rollouts. Leveraged Claude Code to enhance development velocity and automate boilerplate generation.
- Optimized production application performance — reduced bug reports by 40%, improved performance by 30%, increased user retention by 20%, and boosted UX ratings by 15%.

Web Developer | Shivaay Software Solutions · Ahmedabad, India

May 2022 – Apr 2023

- Designed and maintained responsive web applications using HTML, CSS, JavaScript, React, Node.js, and jQuery, ensuring cross-browser compatibility and device responsiveness.
- Improved page load speed by 30%, reduced API errors by 20%, and increased transaction success rates by 15% through targeted code optimization and performance tuning. Conducted functional and UI testing to validate frontend-backend integration and ensure accurate API responses and data flow.

PROJECTS

AI Document Q&A Chatbot | [Node.js](#) · [React](#) · [Hugging Face API](#) · [GitHub](#)

- Built a full-stack AI chatbot allowing users to upload documents and ask natural-language questions using Hugging Face APIs with context-based RAG-style prompting. Developed REST APIs with Node.js and an interactive React UI; delivered a working prototype within 48 hours, processing documents up to 50+ pages with sub-3s response times.

IKEA-Style E-Commerce Platform | [MERN Stack](#) · [JWT](#) · [REST APIs](#) · [GitHub](#)

- Built a full-stack e-commerce web app with secure JWT authentication, product catalogue with category filtering, cart/checkout with payment validation, and real-time order tracking. Implemented admin portal with product CRUD, customer order tracking, and shipping status updates; secured with password hashing and robust client/server-side validation.

Sunrise Airways — Airline Reservation System | [Java](#) · [MySQL](#) · [Swing](#) · [GitHub](#)

- Developed a role-based airline reservation system with secure user registration, ticket booking, flight scheduling, and booking history for both customers and admins.

Roosewald Shipping — Client Management App | [Java](#) · [JSP](#) · [Servlets](#) · [MySQL](#) · [GitHub](#)

- Built a full CRUD shipping management web app using MVC architecture (Java, JSP, Servlets, JDBC) deployed on Apache Tomcat, with a responsive Bootstrap 5 UI.
